Summary

Software Engineering student with a focus on building high-performance, secure, and scalable web applications. Experienced in architecting monolithic and modular systems using Spring Boot and Next.js, with a strong emphasis on security (JWT, OAuth2) and optimized user experiences. Proven Project Manager adept at leading large cross-functional teams using Agile/Scrum methodologies. Committed to clean code, robust system design, and continuous technical innovation.

Education

Ho Chi Minh City University of Technology and Engineering (HCM-UTE) HCMC, Vietnam
Bachelor of Engineering in Data Engineering | Current GPA: 8.41/10.0 Sep 2023 – Expected 2027

- Awarded Semester 1 – Year 1 Scholarship for Academic Excellence (GPA 8.79/10.0).
- Core Coursework: Software Engineering, Web Programming, Data Structures & Algorithms, Database Systems, Distributed Systems, OOP, Big Data Analytics.

Technical Skills

- **Backend:** Java (Spring Boot 3.x), RESTful API, Spring Security (JWT, OAuth2), Hibernate.
- **Frontend:** TypeScript, Next.js (App Router), React 19, Tailwind CSS, Zustand, Framer Motion.
- **Database & Cache:** PostgreSQL, Redis (Session/Cart management), SQL Server, MinIO (S3).
- **DevOps & Tools:** Docker, Docker Compose, Linux, Git/GitHub, Agile/Scrum (Plane.so), CI/CD.

Experience

Teaching Assistant – Database Systems HCMC, Vietnam
Ho Chi Minh City University of Technology and Engineering (HCM-UTE) Oct 2025 – Present

- Assisting in teaching relational database design (ERD), normalization, and SQL optimization for 200+ students.
- Guiding students in implementing complex queries and understanding internal database execution plans.

Freelance Business Analyst & Software Planner Remote
Requirement Management & Documentation Jul 2025 – Present

- Elicited technical requirements and drafted Business Requirement Documents (BRDs) for diverse clients.
- **Key Projects:** Din Ky Restaurant Management, B2B Pharmacy E-commerce, Zalo Mini App.

Projects

UTE PhoneHub (E-commerce Platform) Java, Spring Boot, Next.js, Redis, PostgreSQL
Project Manager & Core Developer | GitHub Oct 2025 – Jan 2026

- Led a 10-member team through 4 Agile sprints to deliver a modern e-commerce hub with BFF architecture.
- Engineered the security layer using Spring Security 6, implementing stateless JWT authentication and Google OAuth2 integration for seamless user onboarding.
- Developed the Product Reviews and Ratings module with dynamic filtering and PostgreSQL JSONB attributes.
- Optimized frontend performance using Next.js Server Components and Streaming SSR (FCP < 1s).

Olist E-Commerce Infrastructure Docker, MinIO, Spark, Agile/Scrum
Software Architect & Team Lead | GitHub | Plane.so March 2026 – Apr 2026

- Designed and deployed a containerized data infrastructure using Docker Compose, orchestrating Spark clusters, MinIO (S3-compatible storage), and Hive Metastore.
- Managed the project lifecycle on Plane.so, coordinating task distribution and sprint planning for a cross-functional team under strict Agile principles.
- Implemented S3-compatible storage layers using MinIO to handle unstructured data ingestion and storage.

Leadership & Activities

HCMUTE RTIC (University Academic Club) | Facebook HCM City, Vietnam
Vice Leader and Co-Founder May 2025 – Present

- Leading academic initiatives and managing internal technical projects: *hcmutertic.com Web Hub* (Lead BA/BE), and *HCMUTE Wellness App* (BA/FE).
- Coordinating technical workshops and mentoring members in algorithm design and server management.

Certifications & Awards

- **Hackathon FIT-HCMUTE 2025:** Consolation Prize
- **AWS Academy Graduate:** Data Engineering | Cloud Web App Builder | Cloud Foundations.
- **Google Career Certificates:** AI Essentials | Crash Course on Python.
- **Gemini Certified Student | Scholarship for Academic Excellence** (Semester 1 - Year 1).
